

RSPO Accreditation – Phase 3

Guntars Laguns

Abstract RSPO RT10

The presentation will explain the key aspects of the ASI international accreditation model and how it is implemented in the management of the RSPO accreditation program.

The presentation will also summarize the steps undertaken until now in the management of the RSPO accreditation program by ASI and RSPO, and will lay out ASI's proposals for how the management of the Program will be implemented going forward, i.e., "RSPO accreditation Phase 3".

It will cover the specifics for the transfer period and when RSPO-approved certification bodies will have to move into the full ASI accreditation cycle. All aspects of the full accreditation process, including ASI and RSPO requirements will be explained in detail.
